Re: 4 Jordan Way (Lot 4A), Site Plan Review

Ms. Stickney and Members of the Planning Board;

In response to the comments, we received at the last the Planning Board hearing, attached for your review and approval are 6 sets of the revised plans for the above noted site. The revisions to the plans include.

- The driveway has been redesigned to be located outside the limits of the Tree Preservation area.
- The landscape plans have been revised to correspond to the civil plans.
- Three additional trees have been added to the plans, 2 in the front island and 1 at the rear of the house.
- Marker stones have been added to the plans.

I believe that this will answer all of the questions raised by the board at the hearing and the site walk. Thank you for this opportunity to respond. If you have any further question or comments regarding the submission, please do not hesitate to contact me. I look forward to meeting with the Board to discuss this further.

Very truly yours,

Gary D. James, P.E.
