

Good morning Planning Board Members,

I am Leslie Schneiderhan and live at 200 Cushing St in Hingham. I have concerns over the impact of the 213-215 Cushing St development on my home and land.

Water naturally flows towards my house and out back to Eel River. The amount of water increased in my wetlands during the building of Leclair Drive. I worry about flooding and also the impact it may have on my foundation.

The blasting done for the development at Leclair Drive also caused a major expensive crack in my foundation. My foundation now sits on Helical Pilings.

My other concern is my septic system. I am in a wetlands zone and do not have the option to move my septic system if it were to be damaged. I want to be assured that my home and all the abutters are protected.

I am not opposed to development but I do hope you will take my concerns into consideration.

Thank-you for your time and look forward to hearing from you.

Regards,

Leslie Schneiderhan
