---

I am writing to say how grateful and thrilled I am that the project to rebuild the town pool at South Shore Country Club has passed. It has been such an integral part of my family's life. All of my children met their summer friends at the pool, participated in swim lessons and swim teams there, and enjoyed a trip during summer camp to cool off. Even going to the snack bar on their own as a little kid became a rite of passage. As an adult who doesn't belong to a country club, having the option to go do laps outdoors and have an affordable membership to do so was a really fantastic benefit of living in this town. For many families it may be their only option. It has been a community hub and I have truly missed it. I absolutely cannot wait for the rebuild to begin!
