Dear Ms. Savage-Dunham,

I reviewed the letter from Amory Engineers dated April 30th, 2019 in regards to the Site Plan Review for 103-107 South Street Hingham.

I am sure this matter will be discussed at the next Planning Board meeting on May 21st. I am writing to you because I will be unable to attend, but have questions that I hope will be addressed:

- 1) What is the timeline for the Bituminous Beam and Earthen beam/depression be installed? Also, what about the crushed stone trench? What company is going to conduct this work?
  
- 2) What has been determined regarding parking spaces for this property?
  
- 3) Will this work need to be completed a month from the Planning Board meeting on May 21st? Would June 21st, 2019 be the deadline for this work to be finished?

I look forward to hearing from you.

Regards,

Michelle Boyne
