

HINGHAM FIRE DEPARTMENT FIRE PREVENTION

210 Central Street
Hingham, MA 02043

Lieutenant Christopher DiNapoli
Fire Marshal

May 8, 2019

Members of the Planning Board,

In a follow up to the previous letter issued by this office regarding the proposed project at 103-105 North St. The building at the rear of the property needs to be removed in order for our apparatus to be able to make the turn radiuses required for the property. The structure in question is a mixed garage residential currently standing to the right hand rear of the property if facing the property.

The most recent plans shown to me had the building removed and all turning radiuses showed as appropriate. The Fire Dept. is not opposed to this project provided these turning radiuses are met.

Should you have any further questions please do not hesitate to reach out to me.

Respectfully,

Lieutenant Chris DiNapoli
Fire Marshal, Town of Hingham
